

BENEFITS OF A MAINTENANCE & SUPPLY CONTRACT

Save by taking control of printing costs

Budgeted
Monthly
Fee

vs.

Unexpected
Service
Fees

&

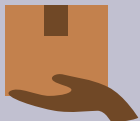

Large
Supply
Orders

How it works

You pay a monthly base fee & price per page printed. Mono prints and color prints have different rates. Rate is the same whether it is a letter or full page photo.

What you get

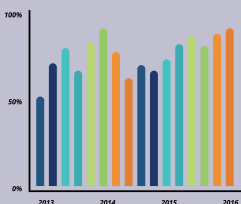

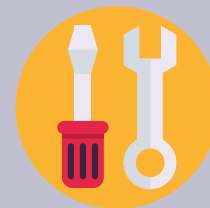

Managed
Inventory

Automatic
Shipping

Toner, drums & other consumables are automatically shipped to you once the supply item reaches a percentage threshold. No more large, expensive orders or closets full of toner for devices no longer in use.

Single point of contact. Call our local help desk for any questions, concerns, or to place a service call. On-site service calls are covered for parts and labor on the device. This includes unexpected break/fix issues as well as regular maintenance.

Visibility of your print environment. Many businesses underestimate their printing costs by 25-35%. Remote monitoring and reporting will show you exactly what and where your volume is coming from.
